

NEW RESTORATION PLAN — MALAWI Profile

VISION

- To promote peace and unity and reduce human suffering

MISSION STATEMENT

- To remain the voice of the voiceless that breaks the shackles of poverty, hopelessness and social injustice in order to reduce human suffering

AIMS AND OBJECTIVES

- To minister psycho-social and physical needs of the voiceless through advocacy and community based programs.

CORE VALUES

- **Impact:** We are committed to making a lasting and measurable impact on the lives of individuals and communities. We continuously evaluate our programs and adapt them to ensure maximum effectiveness.
- **Collaboration:** We believe in the power of networking, collaboration and partnership. We work closely with local communities, government and other non-state actors to create sustainable solutions and promote collective action towards water sanitation and hygiene.
- **Empowerment:** We empower individuals and communities by equipping them with the necessary knowledge, skills, and resources to take ownership of community projects. We believe in fostering self-reliance and enabling communities to become active participants in their own development.
- **Sustainability:** We prioritize long-term sustainability in all our projects. We strive to implement solutions that are environmentally friendly, economically viable, and socially equitable. We work towards building the capacity of local communities to maintain and manage interventions, water and sanitation systems independently.
- **Transparency and Accountability:** We are committed to transparency and accountability in all aspects of our organization. We ensure that our financial resources are used effectively and efficiently, and we communicate openly with our stakeholders about our progress, challenges, and achievements.
- **Equality and Inclusivity:** We believe in the inherent dignity and equality of all individuals. We strive to ensure that our programs reach marginalized and vulnerable populations, including women, children, the elderly, and people with disabilities. We promote gender equality and inclusivity in all our initiatives.

BRIEF BACKGROUND

New Restoration Plan—Malawi is a projects arm of NRMI a non-governmental organization that was formed in USA in 1994 but got fully registered in Malawi in February, 2000.

NRMI has over 25yrs hands on experience and is non-discriminatory. It focuses on community need driven programs in urban and per-urban areas. Its main thematic areas are:

**Democracy & Good Governance
WATER, SANITATION & HYGIENE (WASH) Advocacy
HIV & AIDS Advocacy**

The organization is governed by the Executive Board of Trustees with seven members and the Management Board which is a team of staff members with diverse professional skills headed by the Country Director.

MEMBERSHIP, PARTNERSHIP AND AFFILIATION

New Restoration Plan—Malawi's activities necessitate the involvement of other stakeholders using wide sector approach. The organization is registered and approved member, partner and affiliate of the following such reputable bodies:

- Council of Non-Governmental Organizations of Malawi (CONGOMA) and also served as Regional Chair (South) and member of the governing council.
- Freshwater Action Network; The Butterfly Effect; End Water Poverty—UK, & International Water Resource Association—France
- Sanitation and Water for All (SWA) also served as Steering Committee member for two consecutive terms, and President for Southern Constituency.
- African Civil Society Organizations network on Water and Sanitation (ANEW) also served as board member.
- Missions Training Center, Sacramento, California, USA
- ICARE INC, OREGON, and Pacific Bible College, Southern Oregon, USA
- Lilongwe City Assembly - Mzinda Uwale Project
- LOX 360

Maravi Asian Development Association-MADA

OUR MAIN KEY AREAS AND ACTIVITIES

- **THE CRIPPLED UNION SUPPORT MISSION** This is an arm of NRMI that deals with the social welfare of the people with physical disabilities. We encourage them to be engaged in income generating activities in order to be self-supporting.
- **ORPHAN CARE & FEEDING PROJECT** This is an on-going activity that provides food supplies, clothing, shelter, school supplies, vocational skills so that they become responsible citizens as they grow up.
- **THE ELDERLY MISSION** There are so many old women and men who need care and support. NRMI takes the responsibility as a great challenge especially when these old people have turned into nursing mothers and fathers of orphans whose parents have died of HIV/AIDS.
- **FOOD SECURITY** To ensure food security New Restoration Plan—Malawi empowers local communities with farm inputs.

Local Account No.541500000943

ENVIRONMENT, WATER, SANITATION & HYGIENE (WASH ADVOCACY)

- **Reforestation** — Knowing that Malawi is over populated, use of land and protection of the environment is quite a big challenge. Every year we plant trees and discourage people from cutting down trees wantonly for charcoal for cooking or treating day bricks

- **Water Hygiene and Sanitation** — We advocate for good water management and sanitation policies and practices to prevent them from water related borne diseases such as cholera, dysentery and diarrhea that claim many lives especially during rainy season.

We provide wells where support is available to ensure safe and clean water supply. We encourage communities to avoid open defecation.

- **Flood & Drought Relief** — Malawi faces frequent droughts and flooding that force many non state actors to conduct relief response exercise to the victims. Any time such tragedy happens, New Restoration Plan—Malawi takes part with the Malawi Government recommendation having demonstrated commendable job in 2000 during the Mozambique flood victims repatriation program in which we took part
